Inventor(s): Mills

Group Art Unit: 1745

App'n Ser. No.: 09/008,947

Examiner(s): Kalafut *for*  
*the Secret Committee*

Filing Date: 01/20/1998

Title: HYDRIDE BATTERY AND FUEL CELL

\* \* \* \* \*

August 10, 2005

**RESPONSE TO ADVISORY OFFICE ACTION  
AND REQUEST FOR CONTINUED PROSECUTION**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Applicant files this paper in response to the Advisory Office Action mailed February 2, 2006. Also enclosed is a Petition for a five-month extension. Please also consider this paper a Request for Continued Examination.

Reconsideration and allowance of the subject application are respectfully requested. Claims 1, 2, 4-6, and 10-59 are pending in the present application.

In addition to the comprehensive disclosure in Applicant's originally filed specification, Applicant has submitted new, non-cumulative scientific evidence further confirming the existence of lower energy states of hydrogen, which evidence includes, but is not limited to, analytical studies of spectroscopic lines, energy output, compositions of matter, generated plasmas, and inverted hydrogen populations. As detailed below, Applicant also identifies independent third-party data pursuant to the PTO's agreement, which evidence resulted in verbal confirmation by Examiner Wayne Langel that two BlackLight applications formally handled by him were allowable before he was told to misrepresent that fact and, thus, was forced to resign from examining those cases "for moral and ethical reasons."
